

PANTHER POST

Victor Foreman, 12th grader at Veritas Alternative Learning

A member of the graduating Class of 2024, Victor Foreman is a true testament of the dedication and perseverance we see in our Panther students. Originally lacking in credits, Victor hustled to complete six credit recovery classes this school year in order to graduate.

Wanting to ensure he would complete his courses and graduate, Victor went above and beyond to communicate with program leaders and update them on his progress. Whether it was after school, over the weekend or even on breaks, Victor never lost sight of his academic goal and through his hard work he was able to meet his objective.

Victor is a leader both in the school halls and on the track, as he is a member of the Redford Union High School Track and Field Relay team. His leadership is an inspiration to his fellow classmates and his teachers.

We applaud Victor on his vigilance in completing his credits and congratulate him on his graduation. We wish you nothing but success in the future, Victor!
